Justin Chan

Enthusiastic and dependable web developer with one year of experience seeking a position where I can contribute to a dynamic and growing team

EXPERIENCE

Eviviz — Vancouver, BC — *Angular Web Developer*

SEPTEMBER 2021 - NOVEMBER 2022

Developed client side web applications for data capture and data visualization using Angular with a CI/CD workflow. Collaborated with project designers and co-developers to implement new feature developments. Created and updated standard operating procedures for project initialization.

Lighthouse Labs — Montreal, Qc — *Mentor, Technical Interviewer*

APRIL 2021 - AUGUST 2021

Assisted 40 students per week on their web development bootcamp exercises. Performed technical interviews and evaluations for candidates of mentor positions, assisting in the hiring of 8 new mentors.

Self-Employed — Across Canada — *Dance Teacher*

JULY 2013 - PRESENT

Teach dance classes to up to 200 students yearly in Montreal and across Canada. Collaborate with other teachers to develop succinct and effective curricula for teaching authentic jazz and blues dances.

EDUCATION

Lighthouse Labs — Montreal, Qc — *Certificate in Full Stack Web Development*

COMPLETION: FEBRUARY 2021

University of New Brunswick — Fredericton, NB — *BSc in Chemistry*

GRADUATION: MAY 2011
